CODE OF CONDUCT

TOYOTA

MATERIAL HANDLING

PRESIDENT'S PROLOGUE

At Toyota Material Handling Europe (TMHE), we are committed to being the first choice partner for all customers looking for materials handling solutions. We will do this by providing high-quality, innovative products, services and added-value solutions while using resources in a sustainable, socially and environmentally responsible manner.

As TMHE employees, we should always conduct ourselves with integrity and comply with – and ensure that TMHE complies with – all applicable laws and regulations.

With this commitment in mind, TMHE Management has developed the TMHE Code of Conduct in cooperation with Toyota Industries Corporation to clearly outline and define the type of ethical behaviour that is required of every employee.

TMHE is committed to conducting business in a fair and honest manner and aims to become the most respected and trusted materials handling partner in Europe. In order to achieve this objective, each of us must bear in mind that we are representatives of TMHE and that we must conduct ourselves accordingly in a work-related context.

This implies that we should be honest, reliable and thorough in our conduct, and that we should exercise good judgment in decision-making. I request and expect that each TMHE Employee will carefully read this TMHE Code of Conduct in its entirety and will act in accordance with both its letter and spirit.
