# Strengths and Improvement Areas

## Environment

Weight ●●●●

### Strengths

#### Policies

Strengths

Quantitative objectives set on materials, chemicals & waste

Quantitative objectives set on water

Quantitative objectives set on energy consumption & GHGs

Environmental policy on product end-of-life

Environmental policy on materials, chemicals & waste

Environmental policy on water

Environmental policy on energy consumption & GHGs

Endorsement of the Science Based Targets initiative - Committed

Comprehensive policy on a majority of environmental issues

#### Actions

Strengths

Other actions to ensure safe management of hazardous substances

Use of recovered input materials

Reduction of hazardous substance generation or toxicity

Environmental emergency measures in place

Reduction of material consumption through process optimization

Water accounting or auditing performed

Purchase and/or generation of renewable energy

Improvement of energy efficiency through technology or equipment upgrades

Technologies or practices to recycle or reuse water

Energy and/or carbon audit

ISO 50001 certified

Measures to reduce energy consumption

Formal life-cycle analysis performed on key products

Products designed for easy recyclability

Measures to reuse or recycle waste

ISO 14001 certified on more than 81% of operational sites

### Results

Strengths

Reporting in accordance with GRI Standards (option "Core")

Reporting on total amount of renewable energy consumed

Reporting on total water consumption

Reporting on total weight of non-hazardous waste

Reporting on total weight of hazardous waste

Materiality analysis in sustainability reporting

Company communicates progress towards the Sustainable Development Goals (SDGs)

Reporting on scope 2 GHG emissions

Reporting on scope 1 GHG emissions

Company reports to CDP

The 360° Watch has identified innovative best practices and/or external recognition regarding environmental issues (see 360° Watch section).

Reporting on total energy consumption

Comprehensive reporting on environmental issues

### Improvement Areas

#### Policies

Priority Improvement Areas

Medium

Inconclusive documentation for policies on product use

Low

Inconclusive documentation for policies on air pollution

#### Actions

Priority Improvement Areas

Low

No information on measures regarding air pollution

#### Results

Priority Improvement Areas

Low

No external assurance of sustainability reporting

Low

No information related to reporting on total weight of pollutants emitted to water

Low

No information related to reporting on total weight of waste recovered

Low

No information related to whether any sites/operations are located in or near biodiversity-sensitive areas

## Labor & Human Rights

Weight ●●●●

### Strengths

#### Policies

Strengths

Quantitative objectives set on employee health & safety

Labor & human rights policy on diversity, equity & inclusion

Labor & human rights policy on career management & training

Labor & human rights policy on working conditions

Labor & human rights policy on employee health & safety

Comprehensive policy on a majority of labor or human rights issues

#### Actions

Strengths

Other actions to promote diversity, equity & inclusion

Actions to promote gender inclusion in the workplace

Actions to prevent workplace harassment

ISO 45001 certified on more than 81% of operational sites

Compensation for extra or atypical working hours

Bonus scheme related to company performance

Flexible organization of work (eg. remote work, flexi-time)

Grievance mechanism on discrimination and/or harassment issues

Emergency preparedness plan to all impacted employees (e.g. fire drills)

Employee representatives or employee representative body (e.g. works council)

Provision of protective equipment to all impacted employees

Employee health & safety detailed risk assessment

Grievance mechanism on child labor, forced labor and/or human trafficking issues

Regular assessment (at least once a year) of individual performance

Two-way communication system in place to facilitate employee voice regarding working conditions

Mandatory health check-up for employees

Provision of skills development training

Joint labor management health & safety committee in operation

Setting of individual career plan for all employees

European Works Council in place

Training of relevant employees on health & safety risks and best working practices

## Results

### Strengths

Reporting on the percentage of women employed in relation to the whole organization

Reporting in accordance with GRI Standards (option "Core")

Materiality analysis in sustainability reporting

Company communicates progress towards the Sustainable Development Goals (SDGs)

Comprehensive reporting on labor and human rights issues

Reporting on accident severity rate

Reporting on accident frequency rate

## Improvement Areas

### Policies

#### Priority

#### Improvement Areas

Medium

Inconclusive documentation for policies on social dialogue

Medium

Inconclusive documentation for policies on child labor, forced labor & human trafficking

Low

Inconclusive documentation for policies on health and safety for subcontractors working on the premises

Low

No quantitative target set on living wage

Low

The scope of application of the living wage target is unclear

Low

No conclusive information on endorsement of external initiatives or principles on labor and human rights issues

### Actions

#### Priority

#### Improvement Areas

Low

Does not declare paying employees at least statutory minimum wages throughout the entire scope of operations

Low

Declares measures on living wage, but no supporting documentation available

## Results

Priority Improvement Areas

Low

No external assurance of sustainability reporting

Low

Declares reporting on average training hours per employee, but no supporting documentation available

Low

No information regarding reporting on living wage issues

## Ethics

Weight ●●●●

### Strengths

#### Policies

Strengths

Policy on fraud

Policy on conflict of interest

Disciplinary sanctions to deal with policy violations

Employee signature acknowledgement of ethics policies

Policy on information security

Policies on corruption

Exceptional policy on ethics issues

Policy on anticompetitive practices

Dedicated responsibility for ethics issues

#### Actions

Strengths

Whistleblower procedure for stakeholders to report information security concerns

Whistleblower procedure for stakeholders to report anti-competitive practices

Whistleblower procedure for stakeholders to report corruption and bribery

Incident response procedure (IRP) to manage breaches of confidential information

Information security risk assessments performed

Audits of control procedures to prevent information security breaches

Awareness training to prevent information security breaches

Provision of competitor interaction guidelines to key employees

Anti-competitive practices risk assessments performed

Corruption risk assessments performed

Supporting documentation demonstrates a high level of coverage of ethics actions throughout the company operations

Measures to protect third party data from unauthorized access or disclosure

Awareness training performed to prevent corruption

Anti-corruption due diligence program on third parties in place

Specific approval procedure for sensitive transactions (e.g. gifts, travel)

Audits of control procedures to prevent anticompetitive practices

Awareness training performed to prevent anticompetitive practices

## Results

Strengths

Reporting in accordance with GRI Standards (option "Core")

Materiality analysis in sustainability reporting

Company communicates progress towards the Sustainable Development Goals (SDGs)

## Improvement Areas

### Policies

Priority Improvement Areas

Low

No conclusive information on endorsement of external initiatives or principles on ethics issues

### Actions

Priority Improvement Areas

Low

No conclusive documentation on audits of control procedures to prevent corruption

### Results

Priority Improvement Areas

High

Insufficient reporting on ethics issues

Low

No external assurance of sustainability reporting

## Sustainable Procurement

Weight ●●●●

### Strengths

### Policies

Strengths

Comprehensive sustainable procurement policies on both social and environmental factors

**Actions**

Strengths

Worker voice surveys or other advanced supplier monitoring practices (e.g. second tier audits)

Supporting documentation demonstrates a high level of coverage of sustainable procurement actions throughout the company supplier base/operations

Supplier sustainability code of conduct in place

Formal assessment of suppliers' progress with regards to REACH requirements

Capacity building of suppliers on environmental or social issues (e.g. corrective actions, training)

Regular supplier assessment (e.g. questionnaire) on environmental or social practices

Training of buyers on social and environmental issues within the supply chain

Integration of social or environmental clauses into supplier contracts

**Results**

Strengths

Reporting in accordance with GRI Standards (option "Core")

Declares using no tin, tantalum, tungsten, gold, and/or their derivatives (Not verified)

Materiality analysis in sustainability reporting

Company communicates progress towards the Sustainable Development Goals (SDGs)

Standard reporting on sustainable procurement issues

**Improvement Areas**

**Actions**

Priority Improvement Areas

**Medium** No conclusive documentation on CSR risk analysis (i.e. prior to supplier assessments or audits)

**Medium** No conclusive documentation on on-site audits of suppliers on environmental or social issues

**Results**

Priority Improvement Areas

**Low** No external assurance of sustainability reporting

### Toyota launches new electric counterbalance forklifts

Toyota Material Handling UK has launched a new electric counterbalance range, which comes with a choice of lithium-ion, lead-acid or hydrogen power options. At most sites, a lithium-ion-powered Traigo80 will operate continuously during multiple shifts without a battery change - saving the cost of additional batteries and battery changing equipment. Meanwhile, for users that choose the traditional lead-acid battery option, the new truck offers quick and easy sideways battery changing, while improved motor and component technology means the lead acid battery-driven Traigo80 consumes 15% less energy when compared to the previous model - even in the most intense and demanding applications.

#### Toyota recalls Venza SUVs to fix air bag wiring problem

Toyota is recalling about 373,000 Venza SUVs worldwide because a wiring problem can stop the side air bags from inflating in a crash. The recall covers Venzas from the 2009 through 2015 model years, including nearly 280,000 in the U.S. Documents posted Thursday by the U.S. National Highway Traffic Safety Administration say wires to the air bag sensor in the driver's side door can become damaged with regular use. That could stop the side and curtain air bags from deploying when needed.
